

Letter to the Editor

Dear Editor,

I am writing in response to your article of 3 March about the proposed closure of the Riverside footbridge. As a resident who crosses it twice daily, I can attest that it is used by hundreds of schoolchildren, commuters and elderly residents who would otherwise face a forty-minute detour along a busy road.

The council's own survey, published last year, found that the bridge was structurally sound and needed only routine maintenance. Closing it to save a modest annual sum would be a false economy. I urge the council to reconsider and to consult the people who actually use the bridge before making a decision.

Yours faithfully,

A concerned resident
